Felt Pinecone Ornament (Pk/24)

PLEASE READ ALL INSTRUCTIONS BEFORE STARTING

YOUR KIT CONTAINS:

- Assorted Color Sheets of Felt Pinecone Shapes
- Chenille Stems
- Cord (for hanging)

YOU WILL NEED:

- Scissors

AGE GROUP: 8 and up
PROJECT TIME: 30 minutes

EACH PERSON SHOULD HAVE:

- 2 different colored sheets of felt pinecone shapes
- 1 piece of cord
- 1- 4" length of chenille stem

PREPARATION INSTRUCTIONS:

1. Cut the chenille stems in half so you have 24, 4" pieces.
2. Have each person decide which 2 colors of felt they want to use to make his/her pinecone.

TIP: To make assembly easy, photocopy the instructions and diagrams for each person.

INSTRUCTIONS:

(Refer to the figures on the next page)

1. Lay your 2 felt sheets on the work surface so that they line up with Figure 1.
2. Punch out all the felt pinecone shapes and lay them on your work surface in the same order as Figure 2.
3. Make a small loop in one end of your chenille stem.
4. Starting with the #1 shape, thread 1 of each color on the chenille stem (see Figure 3), following the order of shapes in Figure 2.
5. When you are finished threading all the shapes in order (see Figure 4), make a loop in the top of the chenille stem. Thread the cord for hanging through the loop and tie a knot.
6. You can twist the colored shapes of the pinecone so that they overlap each other or so they are slightly separated if you prefer a fuller looking pinecone.

TIP: Once assembled, for extra sparkle add some glue to the edges of the pinecone shapes and sprinkle glitter on! Let dry. Glue and glitter sold separately.

FIG. 1**FIG. 2****FIG. 3****FIG. 4****Fun!
Facts!****Winter "Wonder" Land**

- Did you know that all snowflakes have 6 sides?
- Hot water freezes faster than cold. The "Mpemba effect" was named after a Tanzanian student who discovered that a hot ice cream mix freezes faster than a cold mix in cookery classes in the early 1960s (though the effect has been noted by scientists throughout history including Aristotle, Francis Bacon and René Descartes).
- 10 inches of snow melts to only 1 inch of water.
